

Lipton's Sustainability Story

Lipton believes small changes can make a big difference. We are continuing to make small changes like using sustainably sourced tea & paper for cartons to make a big difference to the planet. Join us in spreading the Lipton effect & help us create a bigger impact.

Please recycle!

Environment Friendly Plant Based Tea bags.

Certification from Glatfelter (For both 412 & 212 used in tea bags) that the filter paper used for Lipton green tea bags is plant based.

Fibre used in Tea bag filter paper is 100% plant based & from sustainably managed forest.

Beyond Paper

Glatfelter Lydney Ltd • Church Road, Lydney • GL15 5EJ • United Kingdom

For the attention of
Debashis Dasgupta,
Unilever R&D, India

In relation to your enquiry concerning the paper grades 212/SRL used by Unilever India, we can confirm the following.

The 212/SRL filter paper is made with all natural fibres and additives sourced from natural resources with the exception of a small addition (<1%) of wet strength resin required for the paper to have the necessary technical properties for conversion and end use. The wet strength agent is a synthetic polymer derived from non-natural origin/crude oil base.

By natural resources, we understand you mean natural plants and we do not include crude oil as a natural resource although it could be considered to be so.

Consequently, we can state the following

- The fibres used in manufacture of the 212/SRL filter paper are made from or sourced from 100% natural resources.
- We cannot state that the overall filter paper is made from or sourced from 100% natural resources as there is <1% wet strength agent derived from crude oil present.

FSC certificate for filter paper

The natural fibres used are abaca and woodpulp and all the woodpulp we purchase are from renewable sustainable sources for which the raw material supplier have FSC or similar such forestry certification such as PEFC, SFI etc. Abaca as a non wood fibre is not covered by the FSC system directly.

I have attached our Chain of Custody certification document covering the Glatfelter facilities but please note that we do not currently supply 212/SRL to India for which the product itself is fully classified and covered by FSC Chain of Custody requirements which is only confirmed when the required FSC claim is listed on invoices. If you want to have a specific FSC certified product then we need to discuss this further.

Yours sincerely,

Dr Jerry Burch

Name of authorized certifier

Note for renewal audit certificates:

The issuance of this certificate regularizes the validity date of the previous certificate to the current issue date of this new certificate, based on the specific extension granted due to exceptional circumstances, unless the certification is has been officially revoked by trustea or the certifying audit body.

Note for remote audit certificates:

The validity of the certificate issued after remote audit is provisionally granted for a period of six months and is to be regularized by a on site audit. In the case of on-site audit being delayed due to exceptional circumstances, issuance of a certificate post successful on-site audit regularizes the validity date of the previous provisional certificate to the current issue date of this new certificate, unless the certification is has been officially revoked by trustea or the certifying audit body.
