In Beverages, both Tea and Coffee continued to deliver high growth; Processed foods growth was driven by strong volumes in Knorr and Kissan. Knorr soups and mixes expanded variants. Icecream delivered a well balanced growth between volume and price.

Purelt is national and has further expanded its footprint, with current coverage of over 600 towns. The water business continues to meet all action standards.

Input cost inflation, especially crude based, peaked during the quarter. Aggressive cost savings program and pricing actions helped fully offset the impact. Investment behind

brands and new categories were sustained during the quarter, growing 14%. PBIT (bei) grew 16.9% and PBIT margin for the quarter at 12.9% of Sales, was 30 bps below September quarter2007, entirely from Soaps and Detergents, which suffered the maximum cost escalation. Profit after Tax (PAT) from ordinary activities grew by 32% and Net Profit grew by 34%, due to exceptional income from profit on sale of properties.

Mr. Harish Manwani, Chairman commented: "Consumer spending remains robust in FMCG and we continue to improve our turnover ahead of aggregated market growth. We have sustained volume growth in a high inflationary environment and offset the cost impact through aggressive cost management and judicious pricing. Softening of commodity prices, if sustained, will augur well both for consumers and the business. With strong leadership positions, market development will continue to be a major source of growth. We remain focussed on sustaining competitive growth in our core categories and selectively building new categories."
